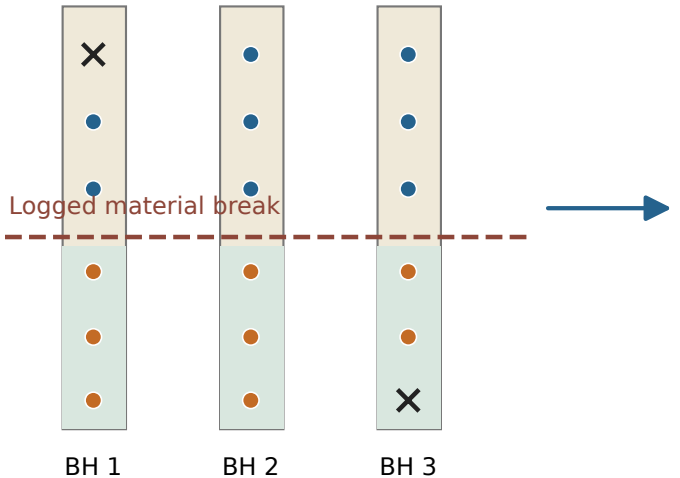
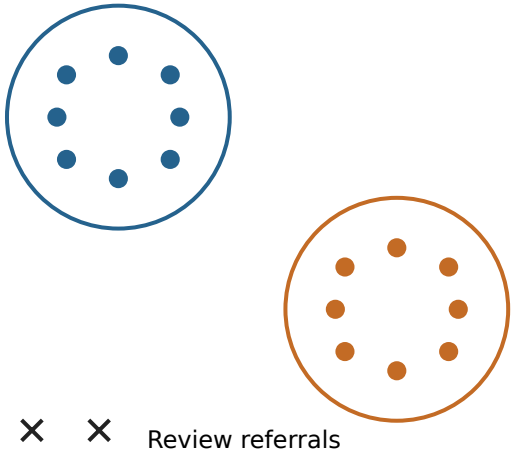
From logged specimens to an inspectable revision plan

1 Borehole evidence



2 Admissible groups

CV + extremum + geology



3 Revision plan

- ✓ Preserve admissible units
- ✓ Merge or rebuild groups
- ✓ List alternative plans
- ✕ Review named records

Optimality certified

19 contexts · 247 specimens | 5% tighter extremum limits: all specimens grouped in 6 contexts, 3 for tested heuristics

Schematic workflow. Review is separate from deleting a measurement or inferring a layer boundary.
